Dear Ms. Megan Loria,

I brought my teenage daughter to your facility now several times. We received the DermaSweep treatment in hopes of having her complexion become smoother and any flaws and imperfections less noticeable. I see a remarkable difference especially after this last treatment. Her skin looks and feels great. She has the confidence to put her "best face" forward now as she will need to... as she will compete for The Miss Teen USA 2007 crown this summer live on NBC! We came and had just 2 treatments prior to her winning her state title of Miss New York Teen USA 2007. She competed against 181 other hopefuls. We now believe when you feel good about yourself this increases your self-confidence and allows you to perform your best. Whether it may be a competition, job interview or any important date you might have this spa treatment definitely promotes your self-esteem and brings out the best you can be!

I also wanted to Thank Megan Loria personally for "fitting us in" as we were working with a limited schedule and traveling quite a distance to visit this Spa. She more than accommodated our needs and it was also such a pleasure to be in her company. We found Megan to not only be very informative and professional but very personable as well. We will definitely continue to visit your Spa and will tell all our friends and family about you! Thank you again for helping our dreams come true!

Sincerely,

Susan Coffey
